## GRAPHITE ROD BLANKS Made in U.S.A.

These high quality blanks are made of SC<sup>II</sup>, SC<sup>III</sup> and SC<sup>V</sup> graphite. Actions are computer designed to get the best performance from this space age material.

### Integrated Poly Curve Technology (IPC)

IPC technology allows St. Croix to make rod blanks on one continuous curve from butt to tip. With IPC, there are no weak spots - just crisp, clean casts like you've never experienced before.

**ROD BLANKS**

GLX

**SLATE (IMX)**

IMX has the highest modulus and strain rate in the industry. Up to 50% more efficient and 40% lighter than a comparable graphite model.

**Mahogany (GL3)**

Higher modulus and strain rate until now only found in more expensive rod blanks. Tough high impact resin system improves durability.

For the hardcore angler that demands the ultimate in performance. Up to 25% lighter than comparable models.

**BRONZE (BLEND)**

Unique blend of graphites for technique specific actions.

**GRANITE (GL2)**

Made from a high strain rate version of standard graphite. Unmatched in its price range for weight, strength and durability.
